

SUMMER JOB CHECKLIST

A practical start-to-apply guide for high school and college students.

1 SET YOUR SEARCH

- Write down your work radius, transportation, start date, and weekly availability.
- Pick 2-3 role categories: camp, retail, food service, front desk, tutoring, events, or office support.
- Choose a simple tracking method for company, role, date applied, and follow-up date.

2 BUILD YOUR RESUME

- Use school, volunteering, sports, clubs, projects, caregiving, or paid work.
- Show responsibility, service, teamwork, reliability, and follow-through.
- Keep it to one clear page and remove anything you could not explain in an interview.

3 APPLY IN BATCHES

- Start with 8-12 roles, mixing quick applications with better-fit opportunities.
- Adjust your top bullets and skills to match each role's real requirements.
- Follow up politely after 5-7 business days when contact information is available.

4 PREP FOR INTERVIEWS

- Practice a 30-second answer to: Tell me about yourself.
- Prepare one story about responsibility, teamwork, conflict, or a busy situation.
- Know your availability and ask about pay, training, schedule, and start date.

PRIVACY CHECK

Never send strangers your Social Security number, bank details, ID photos, payroll forms, or passwords. Confirm the employer and website before sharing personal information. For minors, involve a parent or guardian.

WANT A SECOND SET OF EYES?

Resume tune-ups start at \$25. A \$45 packet adds role targets and application notes; the \$75 sprint adds interview prep.
